

Applic. No. 10/680,582
Amdt. dated January 30, 2006
Reply to Office action of October 28, 2005

Remarks/Arguments:

Reconsideration of the application is requested.

Claims 1-10 remain in the application. Claim 11 is being cancelled herewith.

In the fourth paragraph on page 2 of the above-identified Office action, the drawings have been objected to under 37 CFR 1.83(a).

More specifically, the Examiner has stated that the "gates" must be shown or cancelled from the claims. Claim 11 has been cancelled. Therefore, the objection to the drawings by the Examiner is now moot.

The disclosure is objected to because of the following informalities.

The Examiner stated that there is no detailed description of the invention. The specification has been amended so as to facilitate prosecution of the application. Therefore, the objection by the Examiner is believed to have been overcome.

Should the Examiner find any further objectionable items, counsel would appreciate a telephone call during which the matter may be resolved.

It is appreciatively noted from page 3 of the Office action that claims 1-11 are allowed.

As noted above, claim 10 has been cancelled.

Since only allowable claims remain, the early issuance of a Notice of Allowance is solicited herewith.

In the event the Examiner should still find any of the claims to be unpatentable, counsel respectfully requests a telephone call so that, if possible, patentable language can be worked out.

Petition for extension is herewith made. The extension fee for response within a period of one month pursuant to Section 1.136(a) in the amount of \$60 in accordance with Section 1.17 is enclosed herewith.
